

World Moto2 Championship 2011

MICHELE PIRRO 9 th: "In this situation IT WAS EASIER FINISH THE RACE IN ADVANCE THAT COMPLETED IT"

JEREZ - The forecasts were not wrong and the worsening weather arrived on time at the Jerez circuit. The rain began to fall early in the morning, forcing riders to adapt quickly to the slippery asphalt starting from the warm up.

Michele Pirro, on the first wet race in moto2, gets a 9th place which puts him 8th in the world ranking. A good result in the race where it was easier to make mistakes and end up in advance that finish the race

Michele Pirro: "It 's been a long and difficult race, because it was the first time I used the Moriwaki Moto2 in wet conditions. I started the race after doing just few laps in a wet warm up, where I was not fast and I didn't had a good feeling. For the race we intervended dramatically on the setting and it was better, although it took a few laps to get a good rhythm. I knew that in these conditions it was easier to make mistakes and go home empty-handed, so I focused on the objective to complete the race. Although I tried not to make mistakes on few occasions I risked to fall and at the end I am satisfied of 9 th place and had taken important points for the standings. I am sure that together with the team we will improve and soon we will be able to fight for the top positions. "
